IFSAC Certificate Assembly Accreditation Procedures

Five (5) years from the date of election to membership, each voting entity must have at least one level of certification accredited. The Certificate Assembly Board of Governors shall evaluate the entity’s status at that time and report to the Assembly.

Reaccreditation is required on a five (5) year basis. The five (5) year period begins at the time of the initial accreditation received by the entity.

NOTE 1: If an entity wishes to have a standard other than NFPA accredited, they must first submit the standard to the Standards Review Committee through IFSAC Administration. To ensure the Committee and the Certificate Assembly Board of Governors are adequately prepared for decision-making, Administration requires all submissions arrive in their office no later than sixty (60) days prior to the CABOG meeting. The Committee will review the standard and make a recommendation to the Certificate Assembly Board of Governors. The standard may then be adopted by the Certificate Assembly Board of Governors or forwarded on to the Certificate Assembly for further discussion and/or adoption.

NOTE 2: Site visits occurring less than 45 days prior to a regularly scheduled Certificate Assembly Board of Governors (CABOG) meeting will be placed on the agenda of the CABOG’s next meeting following the meeting occurring directly after the site visit. For example, a site visit conducted in March that is less than 45 days from a CABOG meeting scheduled in April, will be placed on the agenda for the CABOG’s next meeting scheduled in October.

12 Months Prior to When Site Visit is Due

IFSAC Administration will send notification to entities twelve (12) months prior to when a site visit is due.

6 Months Prior to When Site Visit is Due

Entities will be required to provide tentative site visit dates no less than six (6) months prior to when the site visit is due to IFSAC Administration. Once tentative site visit dates are received, IFSAC Administration will schedule and facilitate the site visit, in consultation with the selected site team leader and entity host.

90 Days Prior to Scheduled Site Visit

An application for accreditation/reaccreditation and all required documentation must be completed and submitted by the entity to IFSAC Administration no less than 90 days prior to the scheduled site visit. The documentation submitted by the entity shall include:

- Evidence of empowerment
- Documentation showing financial support (source(s) of funding) for the continuous operation of the certification process.
• Documentation that indicates staffing levels adequate to implement and sustain the certification process described

• A completed application package in accordance with the list provided
  o application for accreditation
  o completed Criteria for Certificate Accreditation
  o test item correlation sheets in the IFSAC format
  o certification policies and procedures manual

• Any culturally sensitive information that the entity feels the site team should know.

• An application fee of $1000 (US) for accreditation or reaccreditation (may be invoiced)

Administration will review the application package to ensure that all documents have been submitted and are complete, that there is evidence of empowerment, and the entity is in good standing with the organization.

Administration forwards the documents to the site team leader for technical review. The technical review should include ensuring that all correlation sheets for the levels applied for are correct and completed as required, criteria worksheets are completed and properly referenced, and that the entity’s policies manual addresses the Certificate Assembly Accreditation Criteria. At least 60 days prior to the site visit, the site team leader shall complete the review and notify IFSAC Administration of whether the site visit should proceed as scheduled.

60 Days Prior to Scheduled Site Visit

After the site team leader has completed his/her review of the entity’s documents, the entity and site team members will be notified by IFSAC Administration about whether the site visit will proceed as scheduled. This should occur no less than sixty (60) days prior to the scheduled site visit so travel arrangements can be finalized as soon as possible.

Copies of all supplied materials will be forwarded from the entity seeking accreditation/reaccreditation to the site team members. The site team leader will develop and supply team members with a site visit agenda. The entity will supply the travel agenda, directions to the facility, and program information.

Any items on the Criteria for Certificate Accreditation that can be answered in advance should be completed prior to arrival at the entity. A pre-visit list of questions should be started prior to the site team’s pre-visit meeting.
Site Visit

The site team examines aspects of the applicant’s certification system to ensure compliance with the *Criteria for Certificate Accreditation*.

When the team arrives at the entity site, there should be a pre-visit team meeting prior to starting the formal process. This will allow the team to work out the details concerning the visit while allowing for discussion on issues already discovered. The site team leader is responsible for ensuring that all aspects of the site visit are carried out during the visit. Should difficulties arise, the site team leader should contact the chairperson of the CABOG and/or IFSAC Administration.

Once the review is completed the site team must hold an exit conference during which the visit is discussed with the entity. When the team ends the visit and departs from the entity, there should be no surprises concerning the visit brought out in the report or in discussion from the team that the entity is not already aware.

**30 Days Following Site Visit**

Within thirty (30) days of the site visit, the site team leader prepares and submits to Administration, the completed IFSAC Site Visit Report.

*Note:* Conditional accreditation shall include specific details as to what the condition(s) must be prior to the granting of accreditation, and how completion of the conditions will be measured. Documentation submitted by the applicant to meet the condition(s) shall be reviewed by the site team within thirty (30) days of submission. Upon review of the documentation, the site team leader has thirty (30) days to submit a final report through Administration to the chairperson of the Certificate Assembly Board of Governors containing a recommendation either to grant or deny accreditation.

Upon receipt of a site visit report, Administration will distribute to all members of the CABOG. Administration shall place consideration of the report on the agenda of the next Board of Governors meeting.

If the *Criteria for Certificate Accreditation* are met, the site team shall recommend to the CABOG that accreditation be granted.

If, in the opinion of the site team, the criteria have not been met, Administration shall report this to the chairperson of the CABOG. The CABOG shall determine if additional time should be afforded to comply or the certificate accreditation should be withdrawn.

**Adding Levels to Accreditation Status Between Site Visits**

Additional levels of accreditation for members with at least one accredited level may be sought by submitting an application and appropriate documentation that complies with the *Criteria for Certificate Accreditation*. Entities submitting additional levels for accreditation should review the *Administrative Review Policy*. Administrative reviews are typically completed by members of the site visit team. If not available, a member of the CABOG may be selected as the reviewer.

Administration will forward the materials to an appointed member for review. The member will
in turn notify Administration, either approving the additional levels if compliance is achieved or reporting deficiencies. Administration will notify the entity as to the results of the review.

**Appeals Process**

The appeals process can be found in Article 12.3 Appeal Process of the Certificate Assembly Bylaws.

**Site Team**

The site team for initial accreditation or reaccreditation shall consist of a minimum of three (3) personnel. The only exception would be for reaccreditation site visits that have five (5) or fewer levels of accreditation - the site team shall consist of a minimum of two (2) personnel.

The site team will be selected by IFSAC Administration from a list of qualified members. Member qualification is outlined in the Site Team Visit Information document.

Cost for site visits will be the responsibility of the entity requesting certificate accreditation. Reimbursements will comply with IFSAC travel polices located in the Site Team Information document.

**Site Team Duties**

*Pre-Visit Duties*

- Travel arrangements must be confirmed between the entity and the site team. The entity forwards the travel agendas to the site team members.

- The site team leader contacts the entity to formalize the site visit agenda.

- The site team leader contacts site team members to inform them what materials to bring and of the site visit agenda. The site team leader sends team members a copy of the site visit agenda and the meeting ground rules.

- The site visit team leader makes a final move or not move forward call for the visit.

*Pre-Visit Meeting*

- The site team leader shall ensure the agenda includes at least one hour for the site team to meet prior to the start of the site visit.

- The site team leader will discuss the site visit agenda, the site visit ground rules, the IFSAC Site Team Code of Ethics, and team member assignments.

- The site team will discuss any pre-visit findings.

- The team will have a general discussion about the site visit approach.

*The Site Visit*

- The site team will meet with entity representatives and the site team leader will begin
the site visit accreditation process.

- The site team leader will facilitate the site visit process. As a minimum, the site visit shall include the following:
  
  o Meet with entity leadership and certification staff
  o Review support services
  o Review test banks
  o Interview staff and applicants of the certification system
  o Observe testing procedures
  o Tour the facilities, if applicable

- The site team shall conduct a pre-exit conference for team members first and then with entity representatives.

- The site team leader shall conduct an exit conference on the site visit results with team members and entity representatives.

**Post-Visit Duties**

- The site team shall allow the entity to respond to findings provided in the exit conference.

- The site team leader shall submit the signed, completed site visit report to Administration within thirty (30) days of the site visit. Any unresolved issues from the visit shall be contained in the report.

- The site team leader shall work with the entity, and other team members to facilitate the review of additional material after the report is filed. If the site team determines that the site visit report requires modifications, then the site team leader shall amend the report and submit it to Administration.

- Administration will forward the report and any amendments, if applicable, to the CABOG.
